

FOR IMMEDIATE RELEASE

Comms Group Global announces global partnership with Vodia Networks Inc. to enhance seamless call connectivity to the Vodia PBX Platform

SYDNEY, AUSTRALIA (4 September 2025) – Comms Group Global, a leading provider of innovative communication solutions and a subsidiary of Comms Group Limited (ASX: CCG), is pleased to announce a strategic distribution partnership with Vodia Networks, a renowned developer of cutting-edge VoIP and cloud-based PBX solutions. This collaboration strengthens Comms Group Global's portfolio by offering customers advanced, scalable, and secure cloud telephony solutions tailored to meet modern business needs.

Under this agreement, Comms Group Global will serve as an official reseller of Vodia's feature-rich PBX solutions, enabling businesses across various industries to streamline communication, improve efficiency, and reduce operational costs. Vodia's solutions are recognised for their seamless integration with Microsoft Teams, advanced call management features, and robust security standards, making them an ideal choice for enterprises and SMEs alike.

Vodia will make available to its customers the ability to "one-touch" provision SIP trunks on the Vodia Platform using Comms Group Global's extensive SIP coverage in over 65 countries.

Peter McGrath, Managing Director and CEO of Comms Group Limited, expressed enthusiasm about the partnership: *"We are thrilled to partner with Vodia and bring their industry-leading cloud-based PBX solutions to our customers. At Comms Group Global, we are committed to delivering high-quality, innovative communication services, and this collaboration aligns perfectly with our mission to empower businesses with state-of-the-art technology. We are also excited to deliver calling services to Vodia customers globally."*

Vodia Networks CEO, Dr. Christian Stredicke, also shared their excitement: *"We are excited to work with Comms Group Global as our distributor across APAC and EMEA where they have extensive calling coverage. Their extensive expertise in communication services and strong market presence make them a perfect partner to expand our reach and provide businesses with best-in-class VoIP solutions."*

The partnership between Comms Group Global and Vodia marks a significant step in enhancing business communication by providing reliable, secure, and scalable solutions that adapt to the evolving digital landscape.

Enterprises and small and medium businesses will be able to select Comms Group Global from the trunk providers list within the Vodia software platform and onboard via a turnkey process. This streamlined integration ensures a seamless deployment experience, allowing businesses to quickly benefit from Comms Group Global's high-quality communication services.
