DAMI IM ANNOUNCES NEW SINGLE *BUBBLE* AND *STORMY WEATHER* TOUR

Golden Wok proudly presents the Stormy Weather Tour

Sydney, Australia – September 19, 2025 — Australia’s powerhouse vocalist and beloved singer-songwriter **Dami Im** returns with her brand-new single *Bubble* (out today via Distro Direct / Dami Army), the first taste of her highly anticipated new album *Stormy Weather*, due mid-2026. With a vibrant jazz-pop sound that draws on timeless influences and connects back to her roots, *Stormy Weather* marks an exciting new chapter for Dami. Alongside the release, Dami also announces her *Stormy Weather* national tour, proudly presented by Golden Wok.

About the Single – *Bubble*

Bubble is a dreamy, slightly cheeky response to the chaos of modern life.

“*Bubble* is my dreamy, slightly cheeky response to all the chaos in the world — climate change, doom scrolling, skies falling. While everything feels like it’s falling apart, this song imagines a little escape: building a cosy life with someone you love, growing veggies, dancing in the rain, and pretending none of it exists. It’s a love song wrapped in denial... and a little bit of hope,” says Dami.
